RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner for Patents
Washington D.C. 20231

Dear Sir:

In response to the Restriction Requirement mailed December 26, 2001, Applicants elect, with traverse, Group I (claims 1-20 and 77), drawn to a process for characterization of a microbial gene wherein the gene is controllably expressed in a microbial cell in a mammal. Applicants reserve the right to pursue examination of the non-elected claims in continuation or divisional applications.

Applicants respectfully request reconsideration and withdrawal or modification of the restriction requirement. It is respectfully submitted that the inventions as claimed can be readily evaluated in one search without placing undue burden on the Examiner. That is, all the claims are so interrelated that a search of one group of claims will reveal art to the others.

In particular were restriction to be effected between the claims of Groups I and V, a separate examination of the claims in these two groups would require substantial duplication of work on the part of the U.S. Patent and Trademark Office. Even though some additional consideration would be necessary, the scope of analysis of novelty of all the claims of Groups I and V would have to be as rigorous as when only the claims of Group I, for example, were being considered by themselves. Clearly, this duplication of effort would not be warranted where these claims of different categories are so interrelated. Further, Applicants submit that for

restriction to be effected between the claims in Groups I and V, it would place an undue burden by requiring payment of a separate filing fee for examination of the nonelected claims, as well as the added costs associated with prosecuting two applications and maintaining two patents.

The Examiner is invited to contact Applicants' Representatives, at the below-listed telephone number if prosecution of this application may be assisted thereby.
